EM euromotor®

LA HISTORIA DE ALYCO S.R.L.

ALYCO S.R.L., una empresa familiar emplazada al oeste de la Ciudad de Buenos Aires, comienza su actividad en 1996, y desde ese momento fue creciendo sostenidamente. En el año 1999 registra su marca **EM euromotor**, fabricando en un principio filtros para automotor. Hacia el año 2000, decide renovar la forma de comercialización de la empresa, adoptando la venta exclusiva a través de su red de distribuidores, la cual fue acrecentándose con el tiempo. Ya en el año 2001 toma la representación de la compañía **Fleenor GmbH** con sede en Düsseldorf (Alemania), e inicia la importación de las correas **FLENNOR**, contando hoy con un amplísimo stock de más de 1000 códigos diferentes de correas. Desde el año 2004 discontinúa su producción de filtros y comienza a fabricar y comercializar tensores para correas de distribución y Multi V, con la marca **EM Euromotor**. **ALYCO S.R.L.** cuenta en la actualidad con una de las líneas más completas del mercado en tensores, con más de 700 modelos diferentes para correas de distribución y de accesorios, abarcando desde los más complejos tensores automáticos e hidráulicos hasta las más simples poleas. En los tensores **EM Euromotor** se montan rodamientos de primera calidad certificada, lo que unido a la moderna maquinaria empleada para la fabricación y los estrictos controles de elaboración, garantizan óptimos resultados de confiabilidad. **ALYCO S.R.L.** en su departamento de diseño y desarrollo continúa incorporando permanentemente nuevos modelos e introduciendo innovaciones acordes

con el compromiso de mejora continua de la calidad que hemos adoptado de las normas ISO. Innovaciones tales como la fabricación de gran cantidad de modelos de tensores con rodamiento doble, lo que aumenta la vida útil de la pieza, disminuyendo vibraciones e incrementando tanto su capacidad de carga como su velocidad rotacional Respondiendo a una inquietud de su red de distribuidores, desde Noviembre del 2007 **ALYCO S.R.L.** inició con destacado éxito, la producción de los Kits **EM euromotor** de Tensores + Correa de distribución **FLENNOR**, que llega en este momento a más de 130 modelos de Kits diferentes. Durante los años 2007 y 2008, gracias a la incorporación de dos nuevas máquinas de control numérico de última generación, **ALYCO S.R.L.** triplica la capacidad de producción de tensores. En el año 2008, aumenta la superficie del área de mecanizado, disponiendo en línea continua el mecanizado, los controles dimensionales, el armado y el control final de la producción de tensores de correa, logrando integrar y optimizar todo el proceso productivo, en el que se incorpora además la identificación de la marca, el código y la partida, grabadas en cada una de las piezas, a fin de garantizar la trazabilidad del producto, tal como lo exigen las normas internacionales. En concordancia con una muy estrecha y consolidada relación con **FLENNOR GmbH**, **ALYCO S.R.L.** ha fabricado más de 50 modelos diferentes de tensores, que la empresa alemana utiliza en los Kits de correa+tensores, para ser distribuidos en toda Europa. Además realiza exitosamente exportaciones a diferentes países de Sudamérica y el mundo.

EM euromotor®

La historia de ALYCO S.R.L. - The history of ALYCO S.R.L. - La historia de ALYCO S.R.L. - The history of ALYCO S.R.L. - La historia de ALYCO S.R.L. - The history of ALYCO S.R.L.

ALYCO S.R.L., a family-owned company sited in the west of the city of Buenos Aires, begins its activities in 1996, and it is growing steadily since that moment. In the year 1999 Alyco registers its brand **EM euromotor** as a trade mark, making at first automotive filters. In the year 2000, **Alyco S.R.L.** decides to renew its way of selling, passing to sell only through its net of distributors, which is getting larger through the years. During the year 2001 **Alyco S.R.L.** becomes the representative of the company **Fleenor GMBH**, sited in Düsseldorf (Germany), and begins to import the **FLENNOR** belts, having today a very wide range of more than 1000 different codes of belts. In 2004 **Alyco S.R.L.** stops its production of filters and begins to make and sell tensioners for timing and Multi V belts, with the **EM Euromotor** brand.

ALYCO S.R.L. currently has one of the widest lines in the tensioner market, with more than 700 different models for timing and Multi V belts, ranging from the most complex automatic and hydraulic tensioners to the

simplest pulleys. **Alyco S.R.L.** put bearings of first and certified quality in the tensioners **EM Euromotor**, and that fact, together with the modern machinery used to make the tensioners and the strict quality

THE HISTORY OF ALYCO S.R.L.

control guarantee optimal results of reliability. The design and development department of **ALYCO S.R.L.** is constantly adding new models and introducing innovations according to the commitment of continuous improvement of the quality which is attached to the ISO 9000 standards. Innovations such as the making of a lot of tensioner models with double bearing, which increases the life span of the piece, diminishes the vibrations and increases the load capacity and the rotational speed. Responding to a claim of its distributors net, in November of 2007

ALYCO S.R.L. successfully begins to make the Kits **EM euromotor** of Tensioners + **FLENNOR** Timing belts, which currently are more than 130 different models of Kits. During the years 2007 and 2008, thanks to acquiring two CNC machines with the newest technology, **ALYCO S.R.L.** triples its production capacity of tensioners. In 2008, the surface of the mechanizing area is raised, putting in a continuous line the mechanizing, the measure controls, the assembling and the final control of the production of tensioners; achieving the integration and the optimization of the

whole productive process, which now adds the identification of the brand, the code and the batch in order to guarantee the traceability of the product, as stated in the international standards. According to a very close and consolidated relationship with **FLENNOR GmbH**, **ALYCO S.R.L.** has made more than 50 different models of tensioners, which the German company uses in their Kits of belt+tensioners, to be distributed through the whole Europe. Besides, **Alyco S.R.L.** successfully exports to different countries of South America and the rest of the world.

VOLVO

IMPORTANTE: Todos los códigos de EM EUROMOTOR que comienzan con FA, FD, FS o FU corresponden a tensores FLENNOR. Los precios de los mismos se deben buscar en la **Lista de Tensores FLENNOR**.

IMPORTANT: All the EM EUROMOTOR codes that begin with FA, FD, FS or FU are FLENNOR tensioners. The price of these tensioners must be searched in the **FLENNOR price list**.
